## About the Grayling Soc

The Grayling Society was formed in 1954 by game fishermen who wished to conserve wild, game fish. Its core aims have been Conservation and Angling for Grayling.

From very modest beginnings in 1954 the Society has grown internationally. Club members can live and fish for Grayling outside the UK. The Society provides you with an opportunity to conserve and perhaps the most beautiful of fish.

In return for your support, the Grayling Society provides you with an opportunity to conserve and perhaps the most beautiful of fish.
